INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and City Commission
City of South Bay, Florida

We have audited the accompanying financial statements of the governmental activities, the business type activities, and each major fund of City of South Bay Florida (the "City") as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the City of South Bay, Florida as of September 30, 2013, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-8 and 36-37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2014, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

City of South Bay, Florida
Management's Discussion and Analysis
September 30, 2013

The purpose of financial reporting, in general, is to provide the readers of the financial statements with information that will help them make decisions or draw conclusions about the City of South Bay's (the "City") financial position and results of operations as of and for fiscal year ended September 30, 2013. The readers should take time to read and evaluate all sections of the financial statements including the footnotes and the other required supplementary information that is provided in addition to this Management's Discussion and Analysis "MD&A" section.

Financial Highlights:

- The City's total net position increased by \$231,132 or 7.7% as a result of a net increase of \$268,423 in business-type and a decrease of \$(37,291) in governmental activities. The net position improved overall due to a reduction in certain expenditures.
- Governmental activities generated \$1,750,948 in revenues with \$1,916,739 in expenses.
- The net position in business type activities increased by \$268,423 mainly due to an increase of \$137,809 in the water and sewer fund and increase of \$130,614 in the sanitation fund.
- Business-type activities generated \$746,746 in revenues with \$349,823 in expenses.
- General fund balance increased by \$75,548, before an additional \$549,036 prior period adjustment to reflect the inclusion of land previously held for sale.

Overview of the Financial Statements

The City's financial statements comprise three components: 1) government-wide financial statements, 2) Fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

1 - The focus of the *government-wide financial statements* is on the overall financial position and activities of the City. The difference between the City's total assets and total liabilities is net position. Although the purpose of the City is not to increase net position, over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

City of South Bay, Florida
Management's Discussion and Analysis
September 30, 2013

The *government-wide financial statements* provide readers with a broad overview of the City's finances for both its governmental activities and business-type activities which are shown in two statements:

- Statement of net position
- Statement of activities

The statement of net position presents information on all of the City's assets held and liabilities owed by the City.

The statement of activities presents the revenues and expenses of the City and the change in net assets during current fiscal year. The items presented on the statement of activities are measured in a manner similar to the approach used in the private-sector; the revenues are recognized when earned and expenses are reported when incurred.

2 – The focus of the *fund financial statements* is directed to specific activities of the City rather than to the City as a whole. Except for the general fund, separate funds are established to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The City groups its funds in two categories:

- Governmental funds
- Proprietary funds

Governmental fund financial statements consist of a balance sheet and a statement of revenues, expenditures, and changes in fund balances. These statements are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements. The focus of the financial statements is on short-term emphasis, and measures and accounts for cash and other assets that can easily be converted to cash. The major fund in the governmental fund is the general fund. The City adopts an annual budget for the general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with annual budget.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The City presents a separate column for the water and sewer and sanitation funds. The sanitation fund charges a fee to customers for the use of services. The water and sewer fund receives an annual fee based on agreement between the City and Glades Utility Authority. The basis of accounting of the financial statements is similar to the basis used to prepare the government-wide financial statements.

City of South Bay, Florida
Management's Discussion and Analysis (continued)
September 30, 2013

3 – The notes to the financial statements provide additional information and disclosures that are essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information such as comparison between the City's adopted budget and actual financial results. The City adopts an annual appropriated budget for its governmental funds. The budgetary comparison statement has been provided to demonstrate compliance with this budget.

Analysis of government-wide financial statements:

	Governmental Activities		Business-Type Activities		Total	
	2013	2012 (Restated)	2013	2012	2013	2012 (Restated)

Total assets	<u>3,047,592</u>	<u>3,122,226</u>	<u>3,582,358</u>	<u>3,388,816</u>	<u>6,629,950</u>	<u>6,511,042</u>
Current and other liabilities	1,358,893	1,382,096	202,988	190,860	1,561,881	1,572,956
outstanding	<u>470,595</u>	<u>484,735</u>	<u>1,345,496</u>	<u>1,432,505</u>	<u>1,816,091</u>	<u>1,917,240</u>
Total liabilities	<u>1,829,488</u>	<u>1,866,831</u>	<u>1,548,484</u>	<u>1,623,365</u>	<u>3,377,972</u>	<u>3,490,196</u>
Net position:						
Invested in capital assets						
(net of related debt)	1,273,702	1,376,413	268,022	270,593	1,541,724	1,647,006
Restricted	110,603	110,603	-	-	110,603	110,603
Unrestricted	<u>(166,201)</u>	<u>(231,621)</u>	<u>1,765,852</u>	<u>1,494,858</u>	<u>1,599,651</u>	<u>1,263,237</u>
	<u>\$ 1,218,104</u>	<u>\$ 1,255,395</u>	<u>\$ 2,033,874</u>	<u>\$ 1,765,451</u>	<u>\$ 3,251,978</u>	<u>\$ 3,020,846</u>

A significant portion of the City's net position (47.4%) reflect its investment in capital assets (e.g. land, infrastructure, buildings and equipment) less any debt related to those assets that is still outstanding. The City uses these capital assets to provide services to citizens; accordingly, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of South Bay, Florida
Management's Discussion and Analysis (continued)
September 30, 2013

An additional portion of the City's net position (3.4%) represents resources that are subject to restriction on how they may be used.

Net position (after restatement) increased from \$3,020,846 to \$3,251,978, as a result of net increase of \$231,132, primarily due to business-type activities.

Expenses and Revenues – Governmental Activities:

Net position increase or decrease over time serves a useful indicator of the government's financial position. Net position in governmental activities decreased by \$37,291 in the current year, while net position in prior year decreased by \$255,029 after restatement. Revenues in governmental activities excluding transfers in, increased by \$80,595 and expenditures decreased by \$300,978 in fiscal 2013 as a result of cost cutting measures.

City of South Bay, Florida
Management's Discussion and Analysis (continued)
September 30, 2013

The net position in business-type activities increased by \$268,423 in the current year, when prior year net position increased by \$118,131. The revenues in business-type activities decreased by \$94,954 partly due to operating grant in amount of \$41,800 which was received in fiscal year 2012. This decrease was offset by a similar decrease in expenditures of \$81,411.

Discussion of Major Funds

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – The City's governmental funds focus on providing information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General fund is the primary operating fund accounting for all unrestricted operating expenditures of the City. Revenues and transfers from other funds aggregated \$1,879,446 while expenditures totaled \$1,803,898, resulting in \$75,548 increase in the fund balance for the year end.

Proprietary Funds – The water and sewer and sanitation fund are identified as major proprietary funds and report the operating income (loss) and change in net assets.

Total propriety funds' revenue for charges for services and other sources aggregated \$746,746 while the total expenditures and transfer out to general fund totaled \$478,323 resulting in \$268,423 increase in net position.

General Fund Budgetary Highlights

General fund operations had a positive variance in amount of \$75,548, and actual revenues including transfer in were \$61,882 less than the final budget. Actual expenditures were less than the budgeted appropriations by \$137,430. Budget amendments were made during year to make available funds for unexpected expenditures as well as to realign funding with changes in each department.

Capital Assets

The City's capital assets (net of accumulated depreciation) as of September 30, 2013, amounted to \$2,012,319 a decrease of \$119,422 from the prior year after restatement. The decrease was primarily due to depreciation expense offset slightly by capital additions. Additional information for the City assets can be found in Note 3 Capital assets.

City of South Bay, Florida
Management's Discussion and Analysis (continued)
September 30, 2013

Long-Term Debt

At the end of the current fiscal year, the City had a total of \$1,876,351 in notes and bonds outstanding as compared to \$1,945,221 last year, a decrease of \$68,870. The decrease is attributed to the payment of \$68,870 of notes payment related to accounts payable balance and the current portion of the City's debts during fiscal 2013. The City's obligations are secured by various revenues sources and capital assets.

Economic Factors and Outlook for the Future

Effective October 1, 2009, the water and sewer services and operations were transferred to Glades Utility Authority "Authority" as well as outstanding bond debt and customers' deposits. The City anticipates that there will be some loss of revenues to the City; however, it anticipates significant savings to the City by the transferring of the bond debt to Glades Utility Authority. However as result of extreme high debt payment obligations, substandard infrastructure and loss of customers, there was a going concern in regard to Authority continue to operates without substantial utility rate increase, accordingly; the Authority dissolved and effective March 31, 2013. All the utilities functions of the three-cities were transferred to Palm Beach County Water Utilities Department.

Also, the future annexation, intermodal logistic center development of the South Bay Park of Commerce and implementation of the South Bay Commerce Center projects will help to create additional sources of income to the City, and improve its tax base.

The City primarily relies on various taxes levied by the state (sales and utilities) and franchise and other business tax receipts for governmental activities. The governmental fund budget has kept operational spending fairly unchanged. The City's elected officials consider many factors, establish goals and priorities when adopting the annual budget each year. However other economic factors such as weak economy, unemployment, commodities prices, growth and any new legislative bill and proposal may have a significant impact on the City's operations.

The millage rate remains at 6.3089 and the property value increased 5.6% for fiscal year 2013-2014 due to improvement in the real estate market. The City is determined to provide the necessary services, efficiently to its citizens.

Request for Information

The financial report is designed to provide a general overview of the City's finances to its citizens, taxpayers, customers, creditors and investors, and to demonstrate the City's accountability to the aforementioned. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Finance Department, 335 S.W. 2nd Avenue, South Bay, FL 33493.

City of South Bay, Florida
Notes to Financial Statements
For the Fiscal Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The City of South Bay, Florida (the "City") is a municipality within the legal and geographic boundaries of Palm Beach County, Florida, incorporated in October 1963 pursuant to Chapter 166, Florida Statutes. It is an instrumentality of the State of Florida established to carry on a centralized municipal government. The City Commission ("Commission") is responsible for the legislative and fiscal control of the City. A City Manager and Treasurer are appointed by the Commission and are responsible for the administrative and fiscal control of the resources of the City maintained in the funds and the account groups described below.

The basic financial statements of the City have been prepared in accordance with generally accepted accounting principles ("GAAP") as applied to governmental units. The Governmental Accounting Standard Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the City's accounting policies are described below:

(a) Reporting Entity

The financial statements were prepared in accordance with governmental accounting standards that establish standards for defining and reporting on the financial reporting entity. The definition of the financial reporting entity is based upon the concept that elected officials are accountable to their constituents for their actions. One of the objectives of financial reporting is to provide users of financial statements with a basis for assessing the accountability of the elected officials. The financial reporting entity consists of the City, organizations for which the City is financially accountable and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The City is financially accountable for a component unit if it appoints a voting majority of the organization's governing board and it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the City. Based upon the application of these criteria, management has determined that there are no other organizations that met the criteria described above.

(b) The Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statements of activities) report information on all of the non-fiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for support.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported, instead, as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. In fiscal year ended September 30, 2013, there are no remaining governmental funds to be aggregated and reported as non-major funds.

Since the governmental fund financial statements are presented on a different measurement focus and basis of accounting than the government-wide financial statements, a reconciliation is presented on the page following each statement, which briefly explains the adjustments necessary to reconcile the fund-based financial statements to the governmental activities column of the government-wide presentation. The City applies eligible expenses against available restricted resources before the use of unrestricted resources.

(c) Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting* as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Grants and similar items are recognized as revenues as soon as all eligible requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Ad valorem taxes and charges for services are susceptible to accrual when collected in the current year or within 60 days subsequent to year end, provided that amounts received pertain to billings through the fiscal year ended. Intergovernmental revenue and utility service taxes are recorded in

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

accordance with their legal or contractual requirements if collected in the current period or within 30 days after year end. Interest is recorded when earned. Licenses and permits, fines and forfeitures, and miscellaneous revenue are recorded as revenue when received in cash because they are generally not measurable until actually received. Occupational license revenue collected in advance of periods to which they relate is recorded as deferred revenue.

Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except that principal and interest on long-term obligations are reported only when due in conformity with GAAP.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in both governmental-wide and proprietary fund financial statements to the extent that those standard do not conflict with or contradict guidance of the Governmental Accounting Standard Board. Governments also have the option of following subsequent private sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private sector guidance.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal operations; in the case of the City, water and sewer revenues include the charges to customers for sales and service. Operating expenses for water and sanitation include the cost of providing these services as well as depreciation on capital assets and associated administrative costs. All revenue and expenses not meeting this definition are reported as non-operating revenues and expenses.

Major Funds and Basis Presentation

Accounting principles generally accepted in the United States of America set forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined), for the determination of major funds. The City may electively add funds, as major funds, which either have significant outstanding debt proceeds or a specific community focus.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenue is derived primarily from property taxes, state and federal distributions, grants and other intergovernmental revenue. The general operating expenditures, fixed charges and capital outlay costs that are not paid through other funds are paid from the General Fund.

The *Water and Sewer Fund* accounts for the activities related to providing water and sewer services to the City residents.

The *Sanitation Fund* accounts for activities related to solid waste, trash and mosquito control services to the City residents.

(d) Assets, Liabilities and Net Assets or Equity:

(1) Cash and Cash Equivalents

Cash and cash equivalents include amounts on deposit in demand and money market accounts at a commercial banking institution.

Deposit Custodian Credit Risk

All of the City's bank deposits are held in qualified public depository and they are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. The uninsured balance at September 30, 2013, was \$1,585,694 based on bank statements balance less FDIC insurance at that time.

(2) Unbilled Accounts Receivable

Property funds recognize revenue on the basis of the monthly cycle billing to customers for services provided. As result of this cycle billing method, there are unbilled receivable at the end of each fiscal year with respect to services provided but not billed at fiscal year end. It is the policy of the City to accrue for unbilled revenue for the Water and Sewer and Sanitation Funds at year end.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(3) Accounts Receivable

Accounts receivables of the City are presented in the financial statements net of allowances for uncollectible accounts.

(4) Allowances for Doubtful Accounts

Accounts receivable are written off on an individual basis in the year the City deems them uncollectible. Allowances for doubtful accounts have been provided for those accounts where collectability appears to be doubtful.

(5) Investments

The City's investments for all funds are carried at fair value based on quoted market prices. Investments consist of U.S Government time deposit securities. Purchases and sales of investments are recorded on the trade dates. Net realized gains and losses on sales of investments are reflected in current operating results as earnings.

(6) Restricted Assets and Reserves

Pursuant to various revenue bond indenture agreements, specific Enterprise Fund assets are required to be segregated as to use and, are, therefore, identified as restricted assets. For certain restricted assets, offsetting reserves have been established by restrictions to fund balance/net position.

(7) Grants from Government Agencies

Certain grants under the various federal and state programs are included in the general fund. Grant monies if and when received are disbursed by these funds for goods and services as prescribed under the respective grant programs or are transferred to other City funds for ultimate distribution under the terms of the grants. These programs are dependent on financial assistance by the state and federal governments.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(8) Capital Assets

Capital asset acquisitions are recorded as expenditures in the governmental fund financial statements. Such assets are capitalized at historical cost in the government-wide financial statements for both governmental activities and business-type activities. In the case of gifts or contributions, such assets are recorded at fair market value at the date of receipt. Capital costs which materially extend the useful life of existing properties are capitalized. Net capital assets are defined as assets with an initial, individual cost of more than \$750 and an estimated useful life in excess of one year. Interest is capitalized on projects during the construction period based upon average accumulated project expenditures.

Infrastructure assets (such as roads, bridges, curbs and gutters, streets, lighting and drainage systems and similar assets that are immovable and of value only to the City) are capitalized and reported in the infrastructure category.

Assets are depreciated using the straight-line method over the following estimated lives:

<u>Asset Type</u>	<u>Life</u>
Building and building improvement	25-50
Improvement other than building and road	20
Infrastructure	50
Equipment and machinery	4-10

Depreciation is charged from the month of acquisition and none in the month of disposal

(9) Compensated Absences

The City accrues for compensated absences in accordance with GASB No. 16, Accounting for Compensated Absences. In the governmental funds, only the portion which would normally be liquidated with expendable available financial resources is accrued whereas, in the government-wide presentations, both the current and long-term portions are reported.

Employees earn 10 to 20 days of vacation and 12 days of sick leave annually. If an employee resigns in good standing or retires, the City pays accrued vacation and from 25% to 50% of accumulated sick leave up to a maximum of 60 days.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(10) Deferred inflows

Deferred inflows are recorded for governmental fund receivable that are not yet available. Inflows that do not meet the criteria for revenue recognition, such as occupational licenses collected in advance are recorded as deferred inflows in the governmental fund and governmental-wide financial statements.

(11) Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligation are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the reported net of the applicable premium or discount. These premiums and discounts are deferred and amortized over the life of the bonds. Issuance costs are expenses in the year they are incurred.

(12) Concentration of Credit Risk

Financial instruments which subject the City to credit risk consist primarily of accounts receivable. Concentration of credit risk with respect to accounts receivable is generally diversified due to the large number of utility customers comprising the City's utility customer base. The City requires deposits from its customers and maintains an allowance for potential credit losses.

(13) Property Tax Calendar

Property taxes are levied on October 1 of each year, tax bills are mailed November 1 and are delinquent if not paid by the following March, and Tax certificates are sold for all taxes unpaid in July. The City's tax revenue is collected by the County's tax collector who remits to the City, monies collected following a calendar prescribed by law.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(14) Use of Estimates

The preparation of financials statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(15) Fund Balance

The City uses restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal agreements that prohibit doing this, such as grant agreements requiring dollar for dollar spending.

Additionally the City would first use committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for the purpose for which amounts in any unrestricted fund balance classifications could be used.

In the fund financial statements, governmental funds report fund classification that comprise a hierarchy based primary on the extent to which the City is bound to constraint on the specific purpose for which amount in those fund can be spent. Amounts that are restricted to specific purpose are as follows:

- Constraints placed on the use of resources by creditors, grantors, contributor, or law or regulations of the governments, and
- Constraints imposed by law through constitutional provision or enabling legislation.

Amounts that can only be used for specific purpose pursuant to constraint imposed by the City Commissioners through a resolution or an ordinance are classified as committed fund balances. Amounts that are constrained by the City's intent to be used for specific purpose, but are neither restricted nor committed are classified as assigned fund balances. Constraints imposed by law through constitutional provision or enabling legislation are classified as restricted fund balances. Assignments are made by City management based on the City Commissioners' direction.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

(15) Fund Balance (Continued)

Non-spendable fund balance includes amounts that cannot be spent because they are either (a) not in spendable from or (b) legally or contractually required to be maintained intact. Unassigned fund balance represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purpose within the general fund.

At the September 30, 2013, the general fund accumulated a deficit from prior years, accordingly, certain above classification of fund balances does not apply to the governmental funds.

(16) Net Position

Net Position of the government-wide and proprietary funds are categorized as invested in capital assets, net of related debt, restricted or unrestricted. Invested in capital assets, net of related debt is that portion of net assets that relates to the City's capital assets reduced by the portion of the assets that has been acquired through the use of long-term debt. This amount is offset by any unspent proceeds that are outstanding at fiscal year-end. Restricted net assets is that portion of net assets that has been restricted for general use by external parties (creditors, grantors, contributors, or laws or regulations of other governments) or imposed by law through constitutional provisions or enabling legislation.

(17) Budget and Budgetary Accounting

The City prepares an annual operating budget for both the general fund and the special revenues fund which are reflected in these financial statements. The City's budgeting process is based on estimates of revenues and expenditures and requires that all budgets be approved by the City of South Bay City's Commissioners (the "Commissioners") after a public hearing is held. Subsequent amendments to the budget, if any, are approved by the Commissioners.

Budgets are prepared on the same basis of accounting as required for Governmental Fund Types. Expenditures may exceed the approved budget amounts for individual categories as long as the total does not exceed the approved budget. Any remaining fund balances remain with the City each year.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 2 – INVESTMENTS:

Investments consist of U.S Government time deposit securities. The table below summarizes the scheduled maturities of the investments at September 30, 2013:

	Fair Value of Investments Maturities				Total
	Less Than One Year	One to Five Years	Six To Ten Years	More Than Ten Years	
U.S Government securities	<u>\$ 20,274</u>	<u>\$ 117,038</u>	<u>\$ 151,873</u>	<u>\$ 778,990</u>	<u>\$1,068,175</u>

On December 12, 1998, the City issued Second Subordinate Water Revenue Bonds Series 1998 for \$1,339,000 with interest of 4.75% to the U.S Department of Agriculture, Rural Utilities Service in connection with providing water and sewer services at the correctional facility in the City known as the Off-Site Improvements. Prior to the issuance of the bonds, \$1,338,760 was placed with the U.S. Treasury in time deposit securities to service the bond debt under an agreement for the water and sewer services. The interest rates on the securities range from 3.782% to 5.400%. The annual payments on the bonds are payable from the maturities of these investments.

Credit Risk – The Second Subordinate Water Revenue Bond Series 1998 limits the investments to United States Government or United States Treasury Bonds, certificates, notes or bills, or to arrange interest-bearing time deposits with the depositories of the City. The interest derived from such investments or deposits shall accrue as revenue to the general fund of the City, except in the case of special funds for which the City is required by agreement or by law, to credit such special funds with interest on the invested balances.

The City has elected to proceed under the alternative investment guideline as set forth in section 218.415 (17) Florida Statutes. The City may invest any surplus public funds in the following:

- (a) The Local Government Surplus Trust Funds, or any intergovernmental investment pools pursuant to the Florida Interlocal Cooperation Act;
- (b) Security and exchange Commission registered money market funds the highest credit quality rating from a nationally recognized rating agency
- (c) Interest bearing time deposits or saving accounts in qualified depositories
- (d) Direct obligation of the U.S. Treasury.

Securities listed in paragraph c and d shall be invested to provide sufficient liquidity to pay obligations as they come due. In addition surplus funds may be deposited into certificates of deposit which are insured. The City reports all interest related revenue to investments activities in the respective funds and reports investments at fair value.

City of South Bay, Florida

NOTE 4 – LONG TERM DEBT (Continued):

On May 20, 2014, the state revolving loan was paid in full as part of the agreement with Palm Beach County Water Department as a result of the dissolution of the Glades Utility Authority. See Note 10 for additional information.

Long-Term Debt of Governmental Activities:

On July 2, 1997, the City purchased land in the amount of \$836,001. On May 17, 2005, the terms of the note were modified to reduce the principal amount due to \$697,040, reduce the interest rate from 6% to zero percent per annum, and extend the maturity to July 1, 2020. The note is secured by land. Payment on the note is required to be made each time a portion of the land is sold based on calculations outlined in the note agreement. The balance of this note at September 30, 2013 was \$470,594.

Settlement Agreement:

On February 28, 2012, the City entered into a settlement agreement with a vendor for \$350,000 relating to an outstanding payable in amount of \$348,438 in water and sewer fund. Under the term of this settlement, the City agreed to pay an initial payment of \$50,000 on March 15, 2012, and monthly installment payments of \$3,942 including interest, for 99 consecutive payments. The future payment for this liability is as follows:

<u>September 30,</u>	
2014	\$ 47,309
2015	47,309
2016	47,309
2017	47,309

2019 – 2020	<u>74,907</u>
Total payment	311,452
Less amount represent interest payment	<u>(58,803)</u>
Net payment	<u>\$ 252,649</u>

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 5 – EMPLOYEE RETIREMENT SYSTEM:

The City provides retirement benefits for all of its eligible employees through a money purchase pension plan and Florida Retirement System Investment Plan for the City Commissioners and appointed officers. The contributions to the employee retirement are as follows:

Money Purchase Pension Plan:

A Money Purchase Pension Plan (the "Plan") covers all City employees who have completed a fourth year of eligible service and agree in writing to make the required employee contributions to the Plan. The required employee contribution is five percent of compensation received. The City's matching contribution is equal to the five percent mandatory employee contribution for the plan year.

The City's matching contributions to the Plan are invested in annuity contracts and/or life insurance policies issued by an insurance company and the contracts and policies are issued in the employee's name. Employee benefits are vested at a rate of ten percent per year and are fully vested after ten years. An employee is eligible for early retirement within ten years of normal retirement date and has ten years of vesting service.

The pension expense under this plan for the year ended September 30, 2013, was as follows:

	Governmental <u>Activities</u>
General Fund	\$ <u>17,163</u>

The Florida Retirement System Investment Plan for the City Commissioners and appointed officers was established by Ordinance 15-2010, and annual contribution rate for both employee and City are set annually by Plan. The contribution under this plan for the year ended September 30, 2013, was \$607. Under this Plan, the employee's benefits are vested upon completion of one year service.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 6 – INTERFUND RECEIVABLES AND PAYABLES:

Interfund receivable and payable balances at September 30, 2013 were:

	Interfund Receivables	Interfund Payables	Transfer In	Transfer Out
General fund – major	\$ -	\$ 861,943	\$ 128,500	\$ -
Sanitation fund – major enterprise	149,150	-	-	123,500
Water & sewer fund – major enterprise	749,585	36,792	-	5,000
	<u>\$ 898,735</u>	<u>\$ 898,735</u>	<u>\$ 128,5000</u>	<u>\$ 128,500</u>

During the course of operations, numerous transactions occurred between individual funds for good and services. The receivables and payables are classified in the Statement of Net Position as interfund balances and are eliminated upon consolidation.

NOTE 7 – FUND DEFICIT:

The general fund had an accumulated deficit fund balance of \$(19,291) at September 30, 2013, as a result of actual expenditures exceeding actual revenues from prior years' operations. For the fiscal year ended September 30, 2013, the City's general fund deficit decreased by \$75,548. The City is attempting to remedy this problem by implementing reductions in expenditures, increasing resources and obtaining new grants.

NOTE 8 – CONTINGENCIES AND COMMITMENTS:

The City receives financial assistance from federal, state and local governmental agencies in the form of grants and revenues sharing programs. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements, and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any disallowed claims would not have a material effect on the overall financial position of the City as of September 30, 2013.

NOTE 9 – RISK MANAGEMENT:

The City purchases insurance for exposures related to various liabilities and legal matters and all other risks of loss. During the past three fiscal years no settlements exceeded the coverage by this insurance.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 10 – UTILITY CONTRACT:

On June 15, 2009, The City of South Bay, The City of Pahokee, The City of Belle Glade and Palm Beach County entered into an interlocal agreement establishing “The Glades Utility Authority” (the “Authority”).

Under this agreement, the City’s utilities operations were transferred to the Authority effective October 1, 2009, and the Authority assumed the responsibility of the water and sewer as well as the outstanding bond debt for the three cities.

During 2012, because of extremely high debt payment obligations, substandard infrastructure and loss of customers, there was going concern in regard to the Authority continuing to operate without a substantial utility rate increase. As a result, the Authority dissolved and effective March 31, 2013, all the utilities functions of the three-cities were transferred to Palm Beach County Water Utilities Department (PBCWUD). As result of this transition, all the outstanding debts of the City in amount of \$2,157,000 as of March 31, 2013. Additionally the state revolving loan was paid off in May 2014 (see Note 4 above).

The City of South Bay will continue to provide the solid waste, trash and mosquito control services. Under the agreement, the Authority agreed to bill the City’s customers for the sanitation services for a fee of one percent to the total of the monthly collection revenue. For the fiscal year ended September 30, 2013, the City paid \$5,879 for the collection fees.

The agreement with PBCWUD shall be for an initial term of fifty (50) fiscal years and commenced on the day that the agreement was executed and the agreement shall, thereafter, automatically renew for successive ten (10) year periods until terminated.

Under the agreement, the PBCWUD is required to pay to the City an annual entity transfer fee equal to seven percent based on annual gross revenues. For the year ended September 30, 2013, the City received \$166,845 for its entity transfer fee.

NOTE 11 – OTHER POST EMPLOYMENT BENEFITS:

The City provides no post healthcare or life insurance benefits to former City’s employee after retirement. Therefore, GASB 45 – “*Accounting and Financial Reporting by Employers for Post Employment Benefits Other Than Pensions*” would have no material effect on the City.

City of South Bay, Florida
Notes to Financial Statements
Year Ended September 30, 2013

NOTE 12 – PRIOR PERIOD ADJUSTMENT:

A prior period adjustment was made at the government-wide level in the amount of \$1,417,222 for the net book value of City's infrastructure. An internal study and valuation was made for all the City's streets in amount of \$8,857,639 net of \$7,440,717 applicable depreciation with the assistance of an engineering firm. The capital assets in government-wide financial statements were understated because the cost of the City's infrastructure was never reported. The prior period adjustment increased the opening net position balance by \$1,417,222.

A prior period adjustment was made to the general fund in the amount of \$549,036. Land which was recorded as a capital asset in the government-wide financial statements, was actually land held available for sale. As a result, this land been reclassified to the general fund balance sheet and has reduced the general fund deficit by the above amount.

NOTE 13 – MANAGEMENT'S REVIEW

Management has evaluated subsequent event through June 25, 2014, which is the date the financial statements were available to be issued.

City of South Bay, Florida
Note to Budgetary Comparison Schedule
Budget and Actual – General Fund
For the Fiscal Year Ended September 30, 2013

NOTE 1 – BUDGETARY ACCOUNTING

Budgets - Budgets are legally adopted for the General Fund. All governmental fund budgets are prepared on the modified accrual basis of accounting.

Under the law of the State of the Florida and the City of South Bay Code, the City Manager submits to the Mayor and City Commissioners, a proposed Budget and Financial Plan for the fiscal year commencing the following October 1st. The Annual Budget and Financial Plan is prepared by fund, function and activities and includes all proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayers comments. Prior to October 1st, the budget is legally enacted by the City Commissioners through passage of a resolution.

Changes or amendments to increase or decrease the total amount of budgeted revenue or expenditures for a given fund must be approved by a majority vote of the City Commissioners; however, the change, amendments or transfers within the total revenue or expenditures for functions, activities or departments of a given fund may be approved by the City Manager. During the year the original budgeted revenues were amended by a reduction of \$382,734, primarily due to less intergovernmental revenues being received and expenditures were amended by \$332,734 due to a reduction in salary expense.

All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget based on legally authorized revisions to the original budgets during the year.

Actual general fund expenditures did not exceed appropriations for the fiscal year ended September 30, 2013. Most of the differences between actual expenditure and budgeted amounts s due to the fact that capital outlay and debt service payments are not broken out and are built into the budgeted amounts for each department..

Encumbrances – Encumbrance accounting, under which purchase orders, contract, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as extension of formal budgetary control. Encumbrance lapse at year end and become obligations of the subsequent year's budget. At September 30, 2013, the City did not have any commitments related to unperformed contracts.

NOTE 2 – BUDGET AND ACTUAL COMPARISON

The Budgetary Comparison Schedule for the General Fund is required to be prepared under the basis of accounting used in preparing the budget. As indicated in Note 1, the modified accrual basis of accounting is used for budgetary purposes.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Honorable Mayor and City Commission
City of South Bay, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in Government Accounting Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund, of the City of South Bay, Florida (the "City"), as of and for the year ended September 30, 2013 and the related notes to the financial statements, which collectively comprise the City's 's basic financial statements, and have issued our report thereon dated June 25, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of South Bay's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstance for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of South Bay's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies- **2013-01**.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of management, City Commission, others within the entity, and is not intended to be and should not be used by anyone other than these specified parties.

City of South Bay, Florida
Schedule of Findings and Responses
Year Ended September 30, 2013

Current Year Findings

Significant deficiency

2013-01 Capital Assets- Buildings and Facilities

Condition

During our tour of the City's infrastructure and capital assets we noted that certain buildings and facilities had been neglected and were run down.

Criteria

Capital assets should be safeguarded by the City.

Cause

The City has failed to upkeep and maintain certain buildings and facilities.

Effect

Certain assets may become impaired and therefore be overstated in value in the government activities of the City

Recommendation

We recommend that management implement procedures to provide some basic maintenance to its buildings and facilities in order to safeguard the City's Capital Assets.

View of Responsible Official and Corrective Action Plan

The City agrees with the finding, as a part of a short term planning, the City is considering a capital budget for fiscal year 2014-2015 to ensure the capital assets are safeguarded; and as a long term plan, the City will continue conducting its assessment to determine how the capital assets could be maintained on a regular schedule.

**MANAGEMENT LETTER IN ACCORDANCE WITH
THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA**

To the Honorable Mayor and City Commission
City of South Bay, Florida.

We have audited the financial statements of the City of South Bay, Florida, (the "City") as of and for the fiscal year ended September 30, 2013, and have issued our report thereon dated June 25, 2014.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Florida Auditor General. We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*. Disclosures in those reports, which are dated June 25, 2014, should be considered in conjunction with this management letter.

Additionally, our audit was conducted in accordance with Chapter 10.550, Rules of the Auditor General, which governs the conduct of local governmental entity audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditor's reports or schedule:

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report and are noted in the Schedule of Findings and Responses except as noted below:

Tabulation of Uncorrected Audit Findings

Current Year Finding #	2011-12 FY Finding #	2010-11 FY Finding #
2013-01	2012-05	2011-3

Section 10.554(1)(i)2., Rules of the Auditor General, requires our audit to include a review of the provisions of Section 218.415, Florida Statutes, regarding the investment of public funds. In connection with our audit, we determined that the City complied with Section 218.415, Florida Statutes.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)4., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Section 10.554(1)(i)5., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City's official title is disclosed in Note 1 to the Financial Statements. The City has no component units.

Section 10.554(1)(i)6.a., Rules of the Auditor General, requires a statement be included as to whether or not the local governmental entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Section 10.554(1)(i)6.b., Rules of the Auditor General, requires that we determine whether the annual financial report for the City for the fiscal year ended September 30, 2013, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2013. In connection with our audit, we determined that these two reports were in agreement.

Pursuant to Sections 10.554(1)(i)6.c. and 10.556(7), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

We wish to thank the City of South Bay and the personnel associated with it, for the opportunity to be of service to them in this endeavor as well as future engagements, and the courtesies extended to us.
