Team Development

What Is Team Development?

A team is a group of Individuals who work together toward a common goal.

(Not I). Team structured process of a group of people (Commissioner, City Manager, Staff, Residents, Business

Owner, Students, Parents, etc.) Teaching them to appreciate the differences each bring to the table and learning to work toward a shared goal. Work groups become a cohesive team when they learn to appreciate differences.

Five (5) Stages of team development

(A) Forming (B) Storming (C) Norming

(D) Performing

(E) Adjourning/Transforming

We as a team have to show leadership.

We have to tell and show our community and ourselves how it should be done. We have to be teachable in order to be an effective team so we lead together.
